Northern Winter - Survival in the Snow

Online Lecture

8:00pm start

Visitors welcome

Sarah Kelman

ARPS DPAGB

The northern taiga is the largest land biome on the planet, but also one of the harshest for the animals that live there. When the winter snows arrive, many species migrate south. This is the story of the animals that remain to overwinter in these harsh conditions.

This talk takes place online using the Zoom app. The login code will be emailed to members. Visitors are welcome and entry is free (voluntary donations are welcome). Please request the Zoom code by visiting www.hdcc.org.uk/syllabus
