## GRAHAM DEAN

25 November 2022

### The Camera Doesn't Lie (but photographers do)

**Online Lecture**

**8:00pm start**

**Visitors welcome**

**Graham Dean** AFIAP

Graham's talk reminds us that image manipulation has been around since the early days of photography,

and is not the recent development that many people assume it is. He starts with a brief history of manipulation techniques – from Victorian times to the present – moving on to a presentation of some of his own cleverly manipulated images.
